**Lemon Myrtle**

*Brachousea Citriodora* - most popular of Australia's native herbs, with its fresh fragrance of creamy lemon and lime. Every Garden should have one

**\$25**

**Cinnamon Myrtle**

*Backhousia myrtifolia* - The fragrant foliage of this native bushfood can be used wherever cinnamon is called for

**\$23**

**White Aspen**

*Acronychia oblongifolia*— attractive, dense lemon scented foliage and edible white fruit

**\$23**

**Wild Currant**

Fruits are ripe when they are purple-black in colour and can be made into a delicious jelly or a sweet syrup

**\$23**

**Blue Lilly Pilly**

*Syzygium Oleosum* - When crushed, the shiny leaves give off a lovely fragrance. The fluffy, white flowers appear at varying times depending on the growing

**\$23**

**Curry Myrtle**

dense to the ground. Small white flowers. Foliage curry-scented when crushed. Hardy, fairly slow, sun or part shade.

**\$23**

**Finger Lime Red or Black**

*Citrus australasica* - fresh vesicles have the effect of a burst of effervescent tangy flavour as they are chewed.

**\$32**

**Macadamia - A4**

can produce commercial yields in three years performs well in NSW and cooler regions

**\$25**

**Strawberry gum**

*Eucalyptus olida* - very rare tree will enhance the flavour of berries, tomato based sauces, dairy or coconut milk dishes such as custards, brulee, etc

**\$25**

**Black Apple**

*Planchonella Australis* - black, plum-like fruit containing red flesh.

**\$23**

**Plum Pine**

The purple fruit are grape like with a sweet juicy pulp with a subtle plum flavour. The slightly resinous fruit can be used for both sweet and savoury recipes.

**\$23**

**Davidson plum**

Lovely foliage fruit makes delicious tangy jam or Chucky

**\$23**

**Black Plum**

*Diospyros australis* - Small yellow flowers are followed by shiny black berries

**\$25**

**Midgen Berry**

Tufting shrub of green foliage tends to reddish tones in colder regions. New foliage shoots are pink. Pretty white flowers become rounded white berries that are edible and sweet.

**\$23**

**Native Tamarind**

The aril may be eaten raw or added to jams and chutneys. It also is used as the basis for a tangy cool drink.

**\$23**

**Native Ginger**

Fragrant white flowers are followed by blue berries. The new leaf shoots and berries have a mild ginger flavour and can be used in cooking, or eaten fresh

**\$23**
